**Subject:** FW: Sengco, Mario shared "304a Lake NNC implementation\_2nd draft\_10\_9\_20\_clean" with you.  
**Attachments:** 304a Lake NNC implementation\_2nd draft\_9\_3\_20\_wedits.docx; Updated timeline\_draft 304a NNC implementation doc\_10\_8\_20\_final\_EPA only.docx; Implementation-related comments\_9\_29\_20.docx

EPA colleagues:

You should have received a link to the second draft of the implementation document for the lakes nutrient criteria (below). Attached is the previous version showing all of the comments we received from the workgroup, and how we addressed the comments, as well as the edits to the document if you want to see what changed.

I've kept a few comment bubble with requests for information and early comments from other EPA members. This second draft also addressed the comments we received through the draft criteria public comment period, which I also attach.

Finally, I'm also attaching a slightly updated timetable. We ask for your review of the second draft by **Friday, October 16**. Our goal is to have a version ready for OST branch chief review on October 19, and to have a version ready for full workgroup review (with ACWA) on November 2.

Please let me know if you have any questions.

Have a good weekend,

Mario

EPA colleagues: Here is the second draft of the implementation document (TSD) for the lakes numeric nutrient criteria for your review. This version now includes Section 2 (permitting). I've retained some questions to the group and preliminary input from workgroup members as well as request for input. I will be sending the edited version so you can see the changes made. We asked for your review by Friday, Oct. 16.

 This link only works for the direct recipients of this message.
